What We've achieved

In recent years the Friends have been able to make significant contributions to the St. Mary's Church Conservation Project where medieval wallpaintings have been revealed and preserved. As part of the project young people gained valuable conservation training and gained new skills in historic building repair.

Amongst the many museum objects we have helped Swindon Borough Council conserve are two paintings of showing Lydiard House in the 1950's by Canadian artist George Tinning.

We have also led successful campaigns to protect Lydiard Park from intrusive building and other unwanted developments.
